Operation 6w w w . b i s s e l l . c o m 8 0 0 . 2 3 7 . 7 6 9 1 ATTENTION: Some Berber carpets have a tendency to fuzz with wear. Repeated strokes in the same area with an ordinary vacuum or deep cleaner may aggravate this condition. Page 6 1 2 5w w w . b i s s e l l . c o m 8 0 0 . 2 3 7 . 7 6 9 1 Your deep cleaner comes in three easy to assemble components: • Handle assembly • Upper body assembly • Lower body assembly Three Phillips head screws are also included and can be found taped to handle assembly. Slide handle assembly down into upper body until it will go no further and secure with screw. Your BISSELL deep cleaner is a home cleaning system that uses a combination of hot tap water, BISSELL advanced cleaning formula, brush agitation and suction to safely clean carpets. DirtLifter® PowerBrush The DirtLifter PowerBrush is designed to enhance cleaning performance. The bristle pattern safely lifts out the deep down dirt while gently grooming carpet fibers. The floating suspension self-adjusts to all carpet heights. When the power is ON (I) and the machine is in the upright position, your carpet is protected because the brushes are lifted up off the carpet. Measuring cup Your deep cleaner is equipped with a measuring cup for adding the proper amount of formula to the 2-in-1 tank. For convenience the measuring cup is built into the lid of the 2-in-1 tank. 2-in-1 water tank Our 2-in-1 water tank system is designed with a heavy duty bladder inside for clean water. As you clean, the clean water in the bladder will empty and mix with the cleaning formula. Dirty water pulled out of your carpets will collect around the outside of the bladder so that clean and dirty water are always kept separate. This allows the user to maximize tank space, yet only carry one tank to and from the sink for emptying and filling. Assembly Special features WARNING: Do not plug in your cleaner until you have completely assembled it per the following instructions and are familiar with all instructions and operating procedures. WARNING: To reduce the risk of fire, use only BISSELL advanced deep cleaning formula for mla for full size machines in your deep cleaner. Use of cleaning formulas that contain lemon or pine oil may damage this appliance and void the warranty. Chemical spot cleaners or solvent-based soil removers should not be used. These products may react with the plastic materials used in your deep cleaner causing cracking or pitting. Removable Nozzle Easy Carry Handle Tip: Deep cleaning carpeting regularly can reduce dust and allergens in your home.
